

Release Date: December 8, 2020

# SUN9260 - End of Life Notice

## Data Replicator

This is formal notification that the Data Replicator product is being declared End of Life. This is due to Sunhillo's move away from the current Data Replicator commercial off the shelf (COTS) hardware platform in favor of the Sunhillo designed Brigantine platform.

## Affected Products

The table below lists the Part IDs being declared End of Life. See the Replacement Product section for details of a replacement product.

Part ID	Description
130081	Data Replicator

## Lifecycle Dates

As part of our End of Life process, Sunhillo is providing guidance concerning the following:

- **Last Order Date:** Orders will be accepted for six (6) months following the release date of this notice.
- **Last Ship Date:** Orders placed before the Last Order Date must be scheduled for shipment no later than six (6) months after the Last Order Date.
- **End of Support Date:** Sunhillo will provide two (2) years of support from the release date of this notice, after which time Sunhillo will no longer provide any support, nor issue RMAs, for Affected Products. If third-party components used in the manufacture of Affected Products, are declared End of Life or test rigs become unavailable before the End of Support date stated in this notice, support will continue to be provided on a best efforts basis during the remainder of the declared support period for Affected Products.

The table below provides a summary of the lifecycle dates for the Affected Products.

Milestone	Date
End of Life Date	December 8, 2020
Last Order Date	June 7, 2021
Last Ship Date	December 7, 2021
End of Support Date	December 7, 2022

## **Replacement Product**

Sunhillo does not plan to provide a direct replacement for the Data Replicator. However, Sunhillo does plan to incorporate similar data replicator functionality into its SureLine® Software Suite running on the Brigantine Surveillance Gateway Processor, as part of the standard SureLine data flow configuration.

Unfortunately, given the scope of this work, it is not expected to be completed until the third quarter of 2021. Customers requiring Data Replicator systems before then should consider placing a last time buy order before the last order date.

<b>EoL Part ID</b>	<b>New Part ID</b>	<b>Description</b>
130081	070-10-BSGP-S01	Surveillance Gateway Processor (Brigantine)
